

BOTANIC HOUSE CAMBRIDGE

CLIENT

Pace Developments

CONSULTANT

Hilson Moran/Formation Architects

PRODUCT

DS II Range

ELECTRICAL CONTRACTOR

T Clarke PLC

Botanic house is described by the architects as a lens style building. Whilst it is an office, they wanted a quality feel with attention to detail. A **SAS150** ceiling system was used with a bevelled edge detail, we supplied our DS II fittings with a similar edge detail ensuring that the luminaires met the architects attention to detail. The fitting also met the requirement of enhanced capital allowances thus ensuring excellent energy efficiency.
